POINTS ABOUT PARKS
 There are more than 1.5 million acres of urban parks in the U.S.

Some trash can take hundreds and hundreds of years to decompose—that's why we don't litter.

Community gardens let people grow healthy food and spend time with their neighbors.

GREEN GRINS

Q: Why did the children cross the park?
 A: To get to the other slide!

Q: What has lots of rings but no fingers?
 A: A tree!

How many leaves can you find in the comic? Sorry, this one doesn't count.

SUPER SLIDE
